

19th European Head and Neck Course

18-20 November 2026 | Amsterdam, The Netherlands

This well known and popular three day course will cover the current management of head and neck cancer within a multidisciplinary framework. The program consists of lectures, panel discussions and videos.

The course provides an in-depth and stimulating update for practicing surgeons and physicians offering immersion in the latest evidence-based developments. The course is suitable for trainees, fellows and specialists in Otolaryngology, Oral and Maxillofacial Surgery, (Plastic) Surgery, Radiation Oncology, Medical Oncology and related specialties. This course is relevant as well for allied health care professionals involved in head and neck cancer care.
